

BD™ Universal Viral Transport System

Adding More Flexibility for Viral Testing

Flexible, Compatible and Uniquely Designed!

- Room temperature and refrigerated viability in ONE formulation
- Compatible transport medium for the BD Directigen™ EZ viral tests
- Designed with safety and convenience to meet your viral testing needs

BD

Helping all people
live healthy lives

BD™ Universal Viral Transport System

Designed to prevent spills.

Unique Formulation

- Sustains viability for viruses, chlamydiae, mycoplasmas and ureaplasmas in a single formulation.
- Offers flexibility in transport temperature ranges—room temperature or refrigerated.
- Suppresses bacterial and fungal contamination by incorporating antibiotics in the medium.
- Preserves viruses and chlamydiae for long-term frozen storage.
- Utilizes a phenol red pH indicator to ensure medium integrity at the time of specimen collection.

Efficient Design

- Available in 1 mL or 3 mL vials to allow for testing flexibility.
- Flat-bottomed conical tube stands on the benchtop which reduces the risk of biohazardous spills.
- Capture-cap on 3 mL vial eliminates the need for forceps to remove the swab and reduces the risk of contamination.
- Scored swabs eliminate the need for scissors.

Compatibility

- Acceptable transport medium for the BD Directigen EZ Flu A+B and BD Directigen EZ RSV test kits.
- Able to be used with flocked swabs which feature nylon strands that use capillary action to absorb and elute the entire sample into liquid media.

Cat. No.	Description	Qty/Pkg
220220	BD™ Universal Viral Transport, 3 mL vial	Pkg. of 50
220221	BD™ Universal Viral Transport Standard Kit: 3 mL vial with 2 regular polyester-tipped swabs	Pkg. of 50
220222	BD™ Universal Viral Transport Combo Kit: 3 mL vial with 1 regular and 1 minitip wire/plastic swab	Pkg. of 50
220239	BD™ Universal Viral Transport 2 regular polyester-tipped swabs	Pkg. of 100
220240	BD™ Universal Viral Transport Combo Polyester Swabs: 1 regular and 1 minitip wire/plastic swab	Pkg. of 100
220244	BD™ Universal Viral Transport, 1 mL vial	Pkg. of 50
220526	BD™ Universal Viral Transport Kit: 1 mL vial with a flexible minitip flocked swab	Pkg. of 50
220527	BD™ Universal Viral Transport Kit: 3 mL vial with a regular and flexible minitip flocked swab	Pkg. of 50
220528	BD™ Universal Viral Transport Kit: 3 mL vial with a regular flocked swab	Pkg. of 50
220529	BD™ Universal Viral Transport Kit: 3 mL vial with a minitip flocked swab	Pkg. of 50
220531	BD™ Universal Viral Transport Kit: 3 mL vial with a flexible minitip flocked swab	Pkg. of 50
256050	BD Directigen™ EZ Flu A+B Test Kit	30 Tests
256030	BD Directigen™ EZ RSV Test Kit	30 Tests
