

LiteStar® Masks Consumables and Accessories

Disposable anesthesia face masks.

Benefits

LiteStar

LiteStar anesthesia face mask is for disposable use. The teardrop shape of the mask supports an anatomical fit. The transparent mask body allows for continuous observation of the patient's condition. There is a color coded reinforcing ring placed around the mask connector, which provides stable connection with breathing circuit systems (sizes 3-6).

The "Traffic Light" color coded reinforcing rings are for easier size identification. The smaller size (3) has red color, mid-sizes (4-5) have yellowish color and the large size (6) has green color.

Additional mask accessories

Additional hook rings and headgears for fixation are available.

Easy application is supported through additional mask accessories: hook rings and headgears for fixation. Three different headgears in small and large designs offer patients and physicians a soft and elastic fixation.

Ordering Information

Description	Package of	Order No.
Mask, LiteStar, without hook ring		
size 1, neonate	30 pcs.	MP01501
size 2, infant	30 pcs.	MP01502
