

PATIENT ROOM

 **encompass®**

Better care starts
with safety and comfort.

ENCOMPASS. FIRST IN SAFETY AND COMFORT.

We partner with our valued customers to create warm, welcoming and healing environments.

From coordinated apparel and comforting textiles, to innovative patient care solutions that drive compliance and improve patient outcomes, Encompass helps you deliver a higher standard of care.

For nearly a century, Encompass has been helping healthcare and hospitality organizations create safe, comfortable environments for patients, staff, residents and guests.

Whether developing advanced technologies for the prevention of hypothermia and deep vein thrombosis, helping hospitals reduce the spread of infections, or designing interiors for new, state-of-the-art retirement communities, we offer a complete line of products, services and education programs that meet the challenges our customers face every day.

Other catalogs available:

- Operating Room

PRODUCT OVERVIEW

We offer quality reusable and disposable products along with clinically-focused solutions to improve patient care and outcomes. The Encompass team of experienced and knowledgeable sales representatives and clinical staff work with healthcare providers to select the best patient-focused products.

PATIENT APPAREL

By always taking into account the importance of patient comfort and modesty, as well as the need to support and promote patient care, we create products that possess the optimum combination of style, durability and construction.

- Gowns and Pajamas
- Robes and Specialty Products
- Coordinated Patient Apparel Ensembles
- Examination Apparel

FALL PREVENTION

Encompass' Fall Prevention solutions offer essential components to support a facility's program for identifying patients at risk for falls, and helping to prevent falls in the first place.

- Patient Gowns
- Risk Identification Kits
- Blankets
- Patient Safety Footwear

PEDIATRIC & INFANT

Introducing the Starlight Collection by Encompass, a new concept in pediatric patient care. Our pediatric and infant apparel and bedding products create a comfortable and caring environment for your youngest patients.

- Starlight Collection
- Pajamas and Gowns
- Pediatric Footwear
- Examination Apparel
- Infant Apparel and Bedding

TEMPERATURE MANAGEMENT

Our easy-to-use Thermoflect® Hypothermia Prevention system reaches beyond the operating theater. This dynamic material uses heat reflective technology to warm patients and retain heat in an ultra lightweight material that outperforms woven linens alone.

- Blankets
- Pediatric Products
- Patient Gowns

BED AND BATH

Our bed and bath collections provide you with a broad array of choices to meet your unique needs. These high-quality, durable products provide cost-effective woven and nonwoven solutions for your facility.

- Woven Bed Linens
- Nonwoven Bedding
- Positioning Aids
- Bedspreads and Blankets
- Towels and Washcloths
- Resuable and Disposable Pillows

INCONTINENT CARE

Encompass elevates the underpad to focus on patient skin care, not just linen protection. We understand that incontinent care is a sensitive issue and provide you with superior performing products that meet the specialized needs of the incontinent patient.

- Patient Care Underpads
- Chair Pads
- Adult Clothing Protectors
- General Use Underpads
- Adult Incontinent Briefs

HYPERBARIC

Encompass offers a complete line of specialty products for use in hyperbaric environments.

- Patient Gowns
- Staff Apparel
- Bed Linens
- Towels and Washcloths
- Pillows

ENVIRONMENTAL SERVICES

Maintaining a safe and clean environment is an essential component to the care of the hospitalized patient today. The PerfectCLEAN® system delivers unrivaled performance and excellent ROI through superior durability. Encompass also offers a wide range of hamper bags for your environmental services program.

- PerfectCLEAN® MicroDenier Cleaning System
- Hamper Bags

INTERIORS

Our made-in-the-USA custom-designed patient room furnishings contribute to comforting and uplifting environments for patients and staff. We provide a full range of solutions including cost-effective fabrics, image-enhancing patterns and designs, and labor-saving installation and hanging options.

- Curtains
- Cubicle Curtains
- Bedcovers
- Design Services
- Shower Curtains

SELECT TIERING SYSTEM

Selecting the best products to optimize patient comfort and improve outcomes is an important undertaking, but we also know it is just one of the many activities that must be accomplished to deliver high quality healthcare. This is why we developed the Select Tiering System for reusable apparel and linens. Our goal is to present and categorize products in an easy, intuitive manner so that appropriate selection is simple and straight forward. Taking into consideration overall aesthetic appeal, performance, and cost, many Encompass products are categorized into one of the following four brands: Impressions, Synergy, Essentials, or Merit.

Impressions

Impressions

Products with the ultimate patient centered features including comfort and visual appeal while also providing durability and performance.

synergy 

Synergy

Products with durability and performance features with a balanced level of comfort and aesthetic appeal.

e s s e n t i a l s

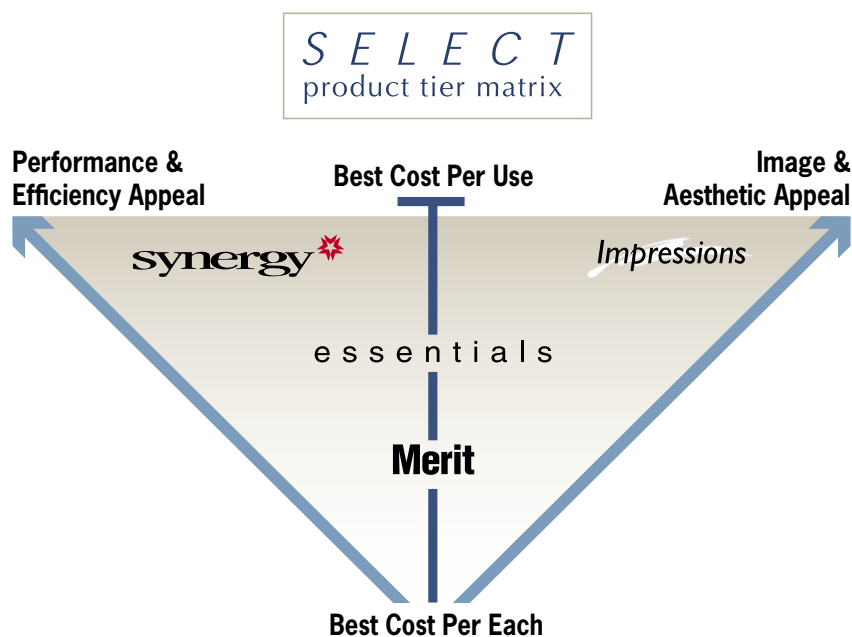

Essentials

Products designed to provide enhanced functionality while balancing cost-effectiveness.

Merit

Merit

Products that meet the basic need and are lowest initial cost per each.

CLINICAL RESOURCES AND COST MANAGEMENT SOLUTIONS

Reducing costs without sacrificing quality of care is one of the biggest challenges facing healthcare customers today. Encompass Acute Care offers programs, systems and services that help healthcare providers and linen processors manage costs while delivering quality outcomes.

Clinical Resources Team: Dedicated nurse consultants with extensive clinical and textile utilization experience who understand the impact of the new healthcare environment on the industry. They work in partnership with hospitals and commercial laundries to identify and reduce linen waste, improve clinical processes associated with linen use, enhance patient care and promote safety and comfort.

Cost Management Consulting Engagement: A comprehensive consulting engagement that analyzes the procurement, distribution and utilization of textiles and related products to identify opportunities to drive out cost. Full implementation of this program has saved hospitals an average of \$300 per bed.

Smart Solutions Linen Education Tools: A series of textbooks, in-service videos, study guides, online CEU courses, and seminars that conveniently deliver education on cost effective linen practices to linen managers and clinical end users.

ExecutorNET Linen Management Software Program: An intuitive, web-based software that enables users to make informed, data-driven decisions concerning product utilization, inventory management and textile selection. The software tracks usage, par levels, inventory and cost and generates easy to read reports and graphs in both electronic and hard copy formats.

ExecutorNET National Average Database Report: Published every two years, this report provides benchmarking data from ExecutorNET users around the country. Data includes pounds per patient activity by hospital size, geography, item use and hospital department for Acute Care, Childrens, Level One Trauma and Teaching hospitals.

Patient Apparel

Encompass' patient apparel products are the perfect combination of style, durability and function. Our quality fabrics, superior weaves and unique designs ensure that every product we offer will maintain its brightness, color and texture – while preserving the modesty of your patients.

Through innovative products such as our fall prevention collection and feature-rich Embrace™ gowns, Encompass continues to demonstrate a commitment to providing quality solutions that promote safe, comfortable environments. With a wide array of woven and non-woven products that are manufactured to the strictest quality standards.

Monet Collection

The Monet™ Collection is an ensemble designed with the input of hospitals, laundries and patients. The muted tones appeal to patients, as well as complement hospital color schemes and effectively hide stains. The fabric construction processes well for laundries and provides the ultimate in comfort to the wearer.

- Features generously sized patient and IV/telemetry gowns, mother's gown, robe, exam cape, bariatric gowns and coordinating solid pajama pants
- Heavyweight cotton/polyester fabric supports warmth and durability
- Color-coded ties for quick identification and ease of use

[top]
Back of 45295-EMB [inset]

The Embrace™ patient gowns offer a revolutionary solution for patient dignity, comfort and coverage. This new design provides the ease of immediate access for medical professionals, while supporting the confidence and comfort of patients with secure, wrap around coverage.

- Bright, attractive patterns with complete wrap-around coverage help facilitate a healing environment focused on patient centered care
- Multi-purpose gown options promote modesty and support for patients with ease in donning
- Snap closures secure the gown for coverage of the patient while enabling immediate access for care administration or emergency intervention, when necessary
- Constructed of a cotton/polyester blend, each design supports efficient processing and durability for laundries, while color-coded ties and binding assist with quick identification for donning

IV/Telemetry Gowns

- Providing the option to be used as a traditional patient gown, as needed, for post operative recovery and short term limitations, this design also converts to provide full closure for dignity and coverage when appropriate
- The repositioned telemetry pocket is secured with the side-wrap and front tie closure to improve patient comfort

Fall Prevention

Encompass understands that identifying patients at risk for falls is a top priority in hospitals today. Encompass' Fall Prevention solutions offer essential components to support a facility's program for identifying patients at risk for falls, and helping to prevent falls in the first place.

Proper fall prevention protocol and products are at the forefront of hospital care based on recommendations by industry leaders such as The Joint Commission and CMS. Our product offering provides solutions for

patient identification and preventive measures and can easily be implemented into fall prevention programs customized for your facility.

Our Albahealth products have led the market for over 25 years, providing premium slip-resistant footwear focused on patient comfort and safety. We offer over 10 unique brands of Patient Safety Footwear. Although each has distinct features, they all provide top-of-the-line slip-resistance to aid in fall prevention.

45253-FALL Falling Leaves Gown and

Pediatric Apparel

Encompass understands what families go through when a child is sick and how important it is to be surrounded by an environment that assists a child's natural ability to cope and heal. With cheerful colors and prints, and fabrics that are soft and comfortable, our pediatric apparel provides you with safe, laundry-friendly alternatives your patients and families are sure to love.

STARLIGHT COLLECTION

BY  **encompass**®

The Starlight Story

Evidence-based studies have directly linked improved patient outcomes to healing environments. With cheerful colors and prints drawn by seriously-ill children and their siblings, the Starlight Collection by Encompass demonstrates our ongoing commitment to provide a comforting environment for the physical and emotional needs of patients and families.

In selecting Starlight Children's Foundation as its national charity partner, Encompass Group shares in Starlight's vision to improve the quality of life for children with chronic or life-threatening illnesses. For more than 25 years, Starlight has been dedicated to improving the quality of life for children with chronic and life-threatening illnesses and life-altering injuries by providing entertainment, education and family activities at over 1300 facilities. These programs help them cope with the pain, fear and isolation of prolonged illness. As a corporate partner, Encompass makes a generous annual donation through the proceeds from the Starlight Collection, and assists Starlight in placing at least three Fun Center mobile entertainment units annually.

To develop our Starlight Collection, Encompass invited patients and their siblings at Starlight facilities to create designs for pediatric products based on the question: Knowing how scary and lonely the hospital can be, what would you like to see to cheer you up? Upon receiving hundreds of designs, Encompass employees voted to select a design to identify four age categories. Those designs are the fun, cheerful prints of the Starlight Collection.

45761-102 Pajama Pant (right)

49339-S36 Starlight Pediatric Blanket

Starlight Pediatric Apparel

The Starlight pediatric patient apparel line features unique, vibrant designs printed on soft, heavy-weight knit fabric. Each distinct design supports simplified sorting and size identification of the gowns and tops, which coordinate to a solid color pajama pant. While providing the soft feel of cotton, the 100% polyester knit garments provide excellent colorfastness and durability, while meeting all federal flammability requirements.

- Gowns and pajama top coordinate with solid pant style 45754
- Laundry-friendly

Thermoflect® Heat Reflective Technology

Thermoflect heat reflective technology has been trusted by clinicians nationwide for over 20 years to protect at risk patients from the serious adverse events associated with hypothermia.

It is the innovative, simple, safe and effective patient warming solution that maintains normothermia and prevents hypothermia in all patient populations from neonates to geriatrics.

The lightweight material can easily be added to your current bed makeup for chronically cold patients to assist with warming without the additional weight and bulk of cotton blankets.

Learn more at www.Thermoflect.com.

Assorted Patient Care

Bed & Bath

Encompass bed and bath products assist in creating a room environment appropriate for rest and respite. Patients should feel positively about their room so that they can concentrate on their medical circumstances. Bedding and bath products used to care for patients should be selected for their quality and the comfort they impart to the patient experience. A patient's sense of well-being comes in part from their perception of care and attention to detail.

Encompass offers high quality patient focused products that meet this need. A broad array of choices are available in blended and knit sheeting, bedspreads, spread blankets, thermal blankets, bath blankets, disposable and reusable pillows, and terry towels and washcloths. Whether you require the high aesthetic appeal of our Impressions line, the durability and longevity provided by our Synergy line, or the economical focus of our Essentials and Merit lines, we have a product to help create a pleasant patient experience.

Knit Fitted Sheets

Knitted Bed Linens

Knitted bed linens are often preferred to woven by patients, staff and laundry managers in the healthcare industry. The natural stretch and construction of these products make them easy to place on beds. They are easy to process because there is no need to iron and usually no folding. Finally, their softness and stretch are ideal for comfort and skin care.

Encompass offers a broad line of knit products to meet every functional, price and comfort need. In order to make the right choice for your needs it is important to understand the types of knits available and the innovations that differentiate our sheets.

Knit Type

PIQUE is a softly textured knit which provides the maximum protection from snags and runs and is soft on the skin.

INTERLOCK is a soft, breathable knit that forms a knot at the juncture of the threads to prevent runs and resist pin-holes.

JERSEY is the same knit you see in retail t-shirts and is a soft, breathable knit.

Knit Fitted Envelope Design Bottom Sheets

Encompass' Envelope Design knit sheets improve patient comfort with added convenience for staff. The patented envelope design construction allows for easier bed-making and ensures that sheets stay in place when the bed is raised or lowered. The unique no-elastic construction makes for exceptional durability and stands up to the rigors of institutional laundering.

Knit Fitted Envelope Design Sheets

Ultra-Knit Fabric

- Breathable, extra-thick Ultra-Knit texture is more resistant to abrasion and mechanical damage than similar cotton/polyester knitted sheets
- Dries more rapidly than cotton/polyester blends
- Special stretch construction ensures a wrinkle-free surface and accommodates a wide range of healthcare mattress sizes

Sleep-Knit Fabric

- Smooth, special plated cotton/polyester construction combines the durability of textured polyester while always keeping 100% cotton on the surface for patient softness and comfort
- Four-way stretch construction offers a wrinkle-free surface and reduces shearing and friction, minimizing the risk of bedsores
- Stain-release fabric withstands frequent use and laundering

CAT NO.	DESCRIPTION	SIZE	KNIT TYPE	WEIGHT	HEM COLOR
49452-25B	Ultra-Knit with Envelope Design	Up to 36" x 84" x 8"	Jersey	24 OZ	Green

Assorted Advent Bedding

Advent® Limited-Use Bedding

Advent limited-use bedding products are ideal for high-use areas where facilities need products that are economical and fresh for each patient. Advent products are made from a unique environmentally responsible wood pulp and polyester blend material. The wood pulp is derived from sustainable forests and the polyester fiber is recycled from post-consumer products. Rest assured your patients will be comfortable on Advent bedding products and you can feel good about choosing an eco-friendly product.

Stretcher and bed sheets are available in standard, full, and extra long sizes.

Moisture barrier sheets and pillow cases are available.

- Clean and fresh
- Eco-friendly recycled material
- Soft and comfortable
- Moisture barrier options

Breeze Patient Positioner

Breeze and UltraSlide Patient Positioning System

More than any other occupation or industry, nursing personnel file for the highest number of operational injuries related to back pain (National Institute for Occupational Safety and Health).

Implementing the standard use of the Breeze positioner and UltraSlide system will create a safer healthcare environment for caregivers, ensure the comfort and safety of patients and residents and support the facility's no-lift policy.

Breeze Breathable Patient Positioner

Manual positioning exposes caregivers to increased risk of neck, shoulder and back injuries. Breeze is a cost-effective, low-friction taffeta positioner that allows caregivers to safely and easily perform handling tasks with little physical strain.

- Quality 50/50 cotton/polyester twill surface provides patient comfort and reduces the risk of shearing friction
- Low-friction backing allows staff to reposition patients safely and easily
- Breathable taffeta backing avoids heat buildup under patients
- Generous sizing provides maximum support
- Can be laundered with other bed linens

CAT NO.	DESCRIPTION	SIZE	FABRIC	WEIGHT	HEM COLOR

Breeze and UltraSlide for standard size mattresses identified by blue color

Breeze and UltraSlide for bariatric mattresses identified by yellow color

Breeze and UltraSlide for stretcher mattresses identified by orange color

UltraSlide Bottom Sheet

UltraSlide Bottom Sheets

The Breeze UltraSlide System is a fitted bottom sheet modified with a low-friction panel down the center and is used together with a Breeze Patient Positioner. UltraSlide should be used when patients/residents have little or no mobility and require extensive or total assistance for repositioning in bed.

Used individually or together, the two parts of the Breeze UltraSlide System reduce the force required to turn or reposition bed-bound patients/residents.

- Special, stretch Ultra Knit construction provides a smooth surface and accommodates a wide range of healthcare mattress sizes
- Central low-friction panel of blue taffeta significantly reduces resistance when used in conjunction with the Breeze
- Blue taffeta panel includes carbon fibers to reduce static build-up
- Durable, 100% synthetic fabric ensures quick drying and longevity

Links Spread Blankets

Links Spread Blankets

An exclusive Encompass product, the Links combines the warmth of a traditional thermal blanket with the designer look of a textured bedspread.

- Fine yarns and tighter twist weave reduces snagging and the bulk and size of the spread
- Quicker processing time and less storage space on shelves and carts
- Durable and cozy blend 55/45 cotton/polyester also has superior color retention

The Pillow Factory® manufactures the finest personal and reusable pillows through superior engineering and material technologies. Dedication to creating innovative, quality, cost effective, and environmentally responsible products has made The Pillow Factory a healthcare industry market leader. All reusable and personal pillows are manufactured using 100% recycled green ecoCLOUD™ fiberfill. The ecoCLOUD fiberfill allows environmentally aware facilities to go green with a product they can believe in. It performs just like previous polyester fill with no reduction in performance or product life.

Don't settle for flat pillows. Encompass reusable pillows feature the SRC®, Soft Resilient Core, system. The SRC system adds support and resiliency to resist wear, crumbling, and breakdown while providing superior patient support and comfort. Use after use, these pillows retain about 65% of their original height, resulting in better value per patient day.

ecoCLOUD™

the **pillow** factory®

A Division of Encompass Group, LLC

The Pillow Factory® family of reusable pillows feature the SRC® system as well as high quality fluid resistant and fluid proof covers which can be easily wiped clean.

Standard Personal Pillows

Personal pillows are optimal for patient comfort and are fresh for each patient. A special manufacturing process called garnetting creates lofty and resilient fiberfill interior layers. A breathable cover allows air to escape from the pillow for superior comfort. Personal pillows are easily configured for propping.

Specialty post-surgical pillows assist patients with recovery. The Hugger pillow features dense fiberfill and can be hugged to reduce the impact of coughing. Prop pillows keep limbs elevated.

- Soft and breathable olefin ticking
- Recycled ecoCLOUD™ fiberfill
- Individually shrink-wrapped
- Fresh and clean
- Dispenser-box packaging
- Easily configured for propping

Incontinent Care

Encompass understands that in providing incontinent products for your patients you are looking for long-lasting and hardworking products that help your patients maintain a sense of dignity. All of our products are designed to provide unmatched protection and comfort for the patients in your facility. Our products come in many attractive colors and mature prints that will enhance your facility and please your patients.

Incontinent Care

PATIENT CARE INCONTINENT PADS

Moisture management is important to successful skin integrity in the acute care setting. Quality linens also have a factor in reducing the amount of bunching, pressure, shearing and friction to which patients are exposed.

Not all incontinent pads, whether reusable or disposable, perform the same. Incontinent pads were originally designed to protect the sheets and mattress rather than the patient. Many pads in use today still adhere to this historical design.

We are now more aware of the extent that excess moisture, bunching, pressure, shearing and friction from bed linens and related incontinent products can contribute to skin breakdown and discomfort. A well-designed incontinent pad, along with good nursing care, can help to mitigate all those negative influences.

Construction

Almost all underpads are constructed of a top or “facing” layer, a middle “soaker” layer, and a bottom “barrier” layer. Each has a job to do:

Facing — get moisture away from skin; provide soft, comfortable surface

Modern, all-polyester fabrics provide the softness that cotton does, but are designed to wick moisture from the top facing into the soaker level. For best patient care, we recommend a high-performing all-polyester facing, instead of one made from cotton fabric.

Soaker — attract, hold and disperse moisture over multiple voids

A good patient care pad will have a minimum of 35% Rayon, which is more effective at drawing the moisture into the soaker and quickly spreading it horizontally. Disposable incontinent pads generally use polymer gels to capture liquids. However, once activated, the gel usually cannot absorb or disperse more liquids on multiple voids like a reusable pad can.

Barrier — keep moisture inside pad; keep pad from slipping down the bed

The best patient care pads “bond” their barrier layer to the quilted facing and soaker levels. Bonding ensures that the pad will not bunch on itself, and also makes it more durable and wrinkle-free during the laundering process.

DermaCare Underpad

DermaCare Underpad

- Top of the line patient care reusable underpad
- Bonded ultra thin pad to help maximize patient care by lying flat to help prevent pressure ulcers
- Ultra lightweight at 14.1oz, DermaCare absorbs up to 4 times its own weight (1,500cc)
- Brushed backing to ensure no movement under the patient to prevent bunching which can lead to pressure ulcers
- Impermeable barrier offers excellent linen protection, eliminating the need for multiple layers and reducing soiled linen

CAT NO.	SIZE	FACING	SOAKER (POLY/RAYON)	CORNERS	BARRIER
50560-9026	33" x 35"	Light Green	65/35	Round	Light Blue

Environmental Services Support

Encompass offers our healthcare customers the tools to provide patients, visitors and staff with safe and clean environments. Through our partnership with UMF Corporation, we offer the PerfectCLEAN® Environmental Cleaning System, which includes mops, wipers, and other cleaning products and accessories. Encompass also offers a variety of hamper bags for use in your facility.

PerfectCLEAN is made from micro-denier fibers, with built in anti-microbial protection to reach into invisible crevices to remove microscopic pathogens from environmental surfaces. The germs are then eliminated in your laundry cycle when using chlorine bleach.

All-Purpose Wipers

All-Purpose Wipers

The PerfectCLEAN All-Purpose Wiper penetrates invisible crevices in surfaces to cut out dirt and grime – the Wiper “traps & removes” contaminants, absorbs and concentrates those contaminants in the Wiper. Color coding for distinguishing between patient rooms, bathrooms, ICUs, and ORs helps reduce cross-contamination.

CAT NO.	DESCRIPTION	QTY/PK	QTY/CS
47985-ORA	All-Purpose Wiper 12" x 12" Orange	5 EA	50 PK
47985-BLU	All-Purpose Wiper 12" x 12" Blue	5 EA	50 PK

Flat Mops

Flat Mops

Developed to withstand the rigors of the healthcare commercial laundry, the PerfectCLEAN Flat Mops meet and exceed durability testing by the largest commercial laundries in the United States and Canada.

Understanding the cross-contamination and Hospital Acquired Infection (HAI) issues in hospitals and nursing homes UMF developed the first line of color-coded, chlorine-stable products and the ONEperROOM™ concept, which can eliminate the risk of cross-contamination. PerfectCLEAN Flat Mops are made from the highest grade micro-denier fiber and contain the highest concentration of fiber resulting in unrivaled performance and are also further distinguished by their patented ‘Built-in Antimicrobial Product Protection.’

CAT NO.	DESCRIPTION	COLOR	QTY/CS

47981-ORA	Flat Mop 20"	Orange	125 EA

Fringed Flat Mops

Fringed Flat Mops

The PerfectCLEAN Fringed Flat Mop is exactly the same as the standard Flat Mop but with a fringe. The Fringed Flat Mop was developed by request from a hospital laundry – they wanted a “combination damp mop and dust mop for lightly soiled patient room floors.” Simply mist PerfectCLEAN to remove dried spots and stains.

CAT NO.	DESCRIPTION	COLOR	QTY/CS
47984-18B	Fringe Mop (Hook & Loop) 18"	Blue	25 EA

47984-48W	Dust Mop (Wire) 48"	Green	24 EA

Tube Mops

Tube Mops

Designed to replace the old fashion traditional string mops, the PerfectCLEAN Tube Mop redefines “industrial strength cleaning,” ideal for areas where soil load is very high. This high absorption, high performance PerfectCLEAN Tube Mop consists of 32 tubes per side. The head band is chlorine-stable, extremely durable and easy to launder.

CAT NO.	DESCRIPTION	COLOR	QTY/CS
47979-YEL	Tube Mop 16 OZ	Grey/Yellow	30 EA
47979-BLU	Tube Mop 12 OZ	Blue/Blue	30 EA
47979-GRN	Tube Mop 12 OZ	Green/Yellow	30 EA

PerfectCLEAN Accessories

Accessories

PerfectCLEAN Accessories support all of the challenging areas in environmental surface cleaning.

With the Easy Grip Flexible Duster and Handle, difficult places and narrow spaces can be easily reached. The Easy Grip Flexible Duster can be manipulated into virtually any shape. Ideal for hard to reach places. The PerfectCLEAN Orange Mitt helps reduce cross-contamination by isolating the cleaning of the commode. The Multi-Use Glove can be used for IV poles, curtain pulls, bed rails, chair rails, and any other odd shaped surfaces – whatever you touch, you clean.

Interiors & Drapery

Encompass creates healthcare environments that welcome you from the moment you enter the room. Every texture, color and detail is designed with your patients' comfort and care in mind. We offer a wide selection of cubicle curtains, drapery and bedspreads, and by manufacturing our products in the USA, we are able to offer our customers the very best quality with minimal lead time.

Design Services

Encompass is proud to own and operate its own Window Treatment, Cubicle Curtain and Bedspread Manufacturing Plant in Big Lake, Minnesota. By manufacturing our own goods, we have a tremendous advantage over our competitors, as they rely heavily on outside vendors to fill these needs. In operating our own custom workroom, we are able to better control quality levels, keep costs down, and assure an attractive end product for you, our valued customer.

From an initial consultation to project completion, there is no job too small or too big. We welcome the opportunity to work with you on your project. Over our many years in business, we have developed strong affiliations with many of the finest fabric manufacturers in the design industry. Due to the large volume of fabric we purchase from these select companies, our customers are assured fair and affordable pricing. We maintain a library with an extensive collection of fire retardant fabric colors, textures, and special finishes that complement any interior.

Project Estimation & Measuring

Specializing in the selection of window treatments, bedspreads and cubicle curtains, our team of estimators can assist you in measuring your windows and cubicles – ensuring a perfect fit and avoiding costly mistakes. Our estimators work closely with you to select fabrics and provide project estimates that meet your facility's unique needs and are within your budget.

Professional Installation

Our nationwide network of professional installers offers years of experience in installation and are accustomed to working in sensitive medical environments. If you are planning to install your own products, our in-house estimators can assist you with valuable phone consultations to help you get the job done correctly and on time.

Looking for just the right fabric for a cubicle curtain, shower curtain, window treatment or bedspread?

Check out the Encompass website's "Draperies and Cubicle Curtain" page to browse our extensive fabric selection. We offer a searchable gallery display of a multitude of solids, prints and textured designs to fit any need you may have.

Classics Fabrics

Classics fabrics from Encompass combine durability with upscale design at an affordable price. Our color palette provides an outstanding selection to coordinate with a wide variety of design schemes. Available in several sizes and configurations, these fabrics will sustain multiple washings with minimal shrinking, pilling or appearance. Since Classics fabrics are stocked in our own manufacturing plant located in Big Lake, Minnesota, cubicle curtains that utilize these fabrics are usually offer quicker delivery than other curtain manufacturers.

Quick Cube

- Stocked in our Big Lake, Minnesota, manufacturing plant for reduced lead time
- Flame retardant and antimicrobial
- 6' wide panel with 21" superior mesh that meets or exceeds code
- Easy to take down, launder and replace
- Available in 84" and 96" lengths

Quick Cube Cubicle Curtains

CAT NO.	COLOR	SIZE
3108413	Ginger	72" x 84"

3109618	Crème	72" x 96"
3109619	Saffron	72" x 96"

Quick Snap Cubicle Curtains

Quick Snap Cubicle Curtains

Quick Snap cubicle curtains contain snaps at the mesh to allow for a quick change of fabric while leaving the mesh intact on the cubicle curtain track. It is a convenient way to remove soiled curtains and replace them in a snap. The panels allow for a smaller stocking program because they are made in two standard sizes: 69" x 84" and 69" x 96".

Hookless Cubicle Curtains

Hookless Cubicle Curtains

This unique system provides a safe and efficient way to hang and remove cubicle curtains without the need for hooks, chains or carriers. The split ring allows the cubicle to hang on a bar rather than a typical cubicle curtain track. Whether you choose one of our Classics fabrics or need a custom design solution, our team of estimators can help you create the perfect solution for your facility.

Custom Cubicle Curtains

Custom Cubicle Curtains

Our custom cubicle curtains come in a variety of colors, patterns and configurations to match any décor or space. All of our select fabrics are inherently flame retardant and will meet or exceed your facility's fire codes. Encompass uses the finest quality 20" mesh tops to reduce snags and tears for long-term durability. Available in several standard sizes, hems are 1½" on both sides with grommets placed every 6".

Disposable Cubicle Curtains

Disposable Cubicle Curtains

Encompass disposable cubicle curtains meet the NFPA 701 requirements and are antimicrobial. This helps to eliminate cross contamination, which is ideal for the ICU, ER, and burn care units – anywhere curtains must be changed frequently. Their lightweight properties make them easy to take down and replace. This maintenance free curtain comes in two convenient sizes: 58" x 90" and 117" x 90".

CAT NO.	SIZE
82501	58" x 90"
82502	117" x 90"

Shower Curtains

Complement your patient rooms with our wide selection of shower curtains. Choose from our attractive pallet of colors and surfaces, with fabric and vinyl options available. For extended curtain life, these curtains are antimicrobial, intrinsically fire retardant, and have a water repellant finish. All curtains feature a magnetic weighted bottom, and a hookless alternative is also available. Standard sizes are stocked, and custom sizes can be manufactured to your specifications.

49009-100	Majestic	Clear
49009-200	Majestic	White
49009-300	Majestic	Champagne

Window Treatments

Encompass manufactures all of our window treatments, ensuring you receive the same high quality product and service levels that you have come to expect. Our experienced staff can help you create virtually any style of window covering you desire. We offer all of the basic treatments, such as Pinch Pleat, Accordia Fold, and Ripple Fold draperies. All of our fabrics are selected specifically for institutional application as well as overall aesthetics.

Encompass also offers a wide variety of top name shades and blinds that can be used alone or in conjunction with one of our more elaborate treatments. Complement any window with one of our decorative treatments that include swags, cascades, and cornices to create a more unique look for your facility.

Pinch-Pleated Drapery

Pinch-Pleated Drapery

Our three finger pinch-pleat custom fit drapes create a beautiful finish to any window or room. Encompass manufactured pinch-pleat drapes are constructed with 100% fullness, 4" top and bottom hems, and 1½" side hems. The finished treatment comes complete with hooks for immediate insertion in rods.

Accordia-Fold Drapery

Accordia-Fold Drapery

Building in popularity for its ease of removal and placement, the Accordia-Fold drapery hangs like the pinch-pleat drapery but is affixed to the rod using snaps, not hooks. The finished treatment comes complete with snaps for immediate installation.

Ripple-Fold Drapery

Ripple-Fold Drapery

Our Ripple-Fold drapery, like the Accordia-Fold, is affixed to the rod using snaps. The folds of the drape are rounded using the placement of the snaps, creating a soft and flowing feel to the fabric. The snap construction makes these a perfect fit for areas where a drape may be removed or pulled on frequently.

*Coordinated Bedspreads*

Coordinated Bedspreads

Whether you are looking to update or completely redesign a patient room, our bedspreads can provide that finishing touch. Our fabric library offers a vast selection of both stocked and custom fabrics to choose from, and all our available quilted or non-quilted.

Faux Wood Blinds

Faux wood blinds are a cost-effective way to add a rich, warm feeling to your facility. They are easy to maintain and meet or exceed all fire codes. Our faux wood blinds are available in a several sizes with many options for colors and finishes. Natural wood blinds are also available.

*Solar Shades*

Solar Shades

Our solar shades are made with healthcare facilities in mind. Not only do they provide privacy in patient areas, they also help reduce the fading of furniture and textiles by diffusing light. Easy to install and maintenance free, solar shades complement any décor and can be used in combination with other window treatments and drapery.

Vertical & Horizontal Blinds

Blinds add privacy to patient areas and improve patient comfort by allowing complete flexibility for filtering light. Encompass offers a wide range of colors, styles and finishes to suit your décor perfectly. Durable and virtually maintenance free, blinds can be an economical way to decorate and add interest to a room.

Hardware

We carry the latest in hardware that will complement your choice of drapery. Our selections are designed to withstand the rigors of a patient facility and feature carriers that make draperies easy to remove and replace. Most of our drapery is offered with baton or cord controlled.

Care Guard Pillows

Reusable Pillows Care & Cleaning Instructions

REUSABLE PILLOWS ARE DESIGNED TO BE CLEANED BY HAND APPLICATION OF A STAIN REMOVING AGENT.

- Reusable pillows are not to be laundered or dry cleaned.
- Begin the process of wipe-down as soon as possible. The longer the stain remains the more permanent it will become. Some stains cannot be removed with any known chemistry.
- Damage to the fabric structure and the special coatings applied can result from inappropriate use of strong chemicals and/or abrasive applicators.

PLEASE USE THE FOLLOWING PROCEDURE TO REMOVE STAINS:

1. Spray directly on the stain with:
 - a. A .525% Sodium Hydrochloric solution (a mixture of one part bleach and nine parts water). This is the preferred agent.
 - b. Any germicidal cleaner diluted per manufacturer's instructions.
2. Wipe the liquid solution into the fabric with a soft cloth or sponge to remove the stain.
3. Wipe the fabric again using plain water to remove all traces of the cleaner.

A Division of Encompass Group, LLC

Washing Instructions

In order to maintain the look, function and durability of your Encompass products, the following wash instructions should be followed for the items in this catalog. The wash procedures presented here are recommended by the products' manufacturers. Following these suggested guidelines will help keep products looking better and promote a longer product life. If a particular product is not included in the following instructions, follow the instruction tag on the product itself.

REUSABLE APPAREL

General Instructions for All Products

- All new textile products should be laundered prior to use.
- Do not overload washers or dryers. To ensure thorough cleaning, washers and dryers should be loaded to allow freedom of movement for the garments.
- The following recommendations should be used as guidelines. Deviations should be made at the discretion of the laundry professional, based on the specific requirements, supplies, equipment and experience.

Color Wash (colored apparel)

1. Launder high-fashion apparel and dark colors separately.
2. Do not use chlorine bleach.
3. Machine wash on warm setting. Temperatures not to exceed the following: Apparel – 120°F
4. Rinse thoroughly.
5. Tumble dry at temperatures not to exceed 250°F.
6. Remove promptly from dryer and fold or hang to help prevent wrinkling.

White Wash (white apparel)

1. Machine wash on warm setting. Do not exceed 160°F.
2. Launder high-fashion apparel separately. When bleaching, follow the manufacturer's instructions.
3. Rinse thoroughly.
4. Tumble dry at hot or cotton setting. Temperature should not exceed 250°F.
5. Remove promptly from dryer and fold or hang to help prevent wrinkling.

Wash Instructions for Professional Labwear

In order to maintain the look of garments, we recommend you follow our guidelines for proper laundering. Deviations should be made at the discretion of the laundry professional, based on specific requirements, supplies, equipment and experience.

Colors

Launder high-fashion and dark colors separately. Do not use bleach. Machine wash on a warm setting not to exceed 120°F. Rinse thoroughly. Tumble dry at temperatures not to exceed 250°F. Remove promptly from the dryer and fold or hang to help prevent wrinkling.

Whites

Machine wash on a warm setting not to exceed 160°F. Launder high-fashion styles separately. When bleaching, follow the manufacturer's instructions. Rinse thoroughly. Tumble dry at hot or cotton setting. Temperature should not exceed 250°F. Remove promptly from dryer and fold or hang to help prevent wrinkling.

REUSABLE FLUID-RESISTANT FABRICS

Because of the repellent qualities of these fabrics, the following wash and rinse cycles are required:

Operations	Time	Level	Temp.	Supplies/100 lbs.
1. Flush	3 min.	High	Cold	
2. Flush	3 min.	High	Cold	
3. Break	7 min.	Low	160°F	8 oz. Nonionic detergent; 8 oz. alkali
4. Suds	7 min.	Low	160°F	4 oz. Nonionic detergent
5. Rinse	2 min.	High	140°F	
6. Rinse	2 min.	High	120°F	
7. Rinse	2 min.	High	100°F	
8. Rinse	2 min.	High	Cold	
9. Sour	5 min.	Low	Cold	Sour to pH 6.0

1. A thorough rinse is essential to remove all surfactants. Residual surfactants will adversely affect the repellent properties of these fabrics.
2. Excessive use of softeners is not recommended as they may adversely affect the repellent properties of these fabrics.
3. SafeCare fabrics have inherent stain-resistant properties; therefore, bleaching should not be necessary. However, if a chlorine bleach is used, use an antichlor in the second rinse. Always ensure that no chlorine remains in the fabrics after washing and that no chlorine residue is present in the washing or drying equipment.
4. After washing, garments should be thoroughly heat dried. Repellency characteristics are enhanced through heat and pressing. Press with a cool iron.

Standard Terms and Conditions of Sale

ORDER PROCESS

Purchased orders may be placed directly with our Customer Service Team in our National Service Center in McDonough, GA. The general number is 1-800-284-4540. Please contact your local Encompass representative for assignment to a specific customer service rep and direct call-in and fax numbers, as well as e-mail addresses. Order may also be placed through EDI with proper set-up.

Establishing an Account

Prior to placing a first order, new customers must complete a new account application and be assigned a customer number. This process can be initiated by calling our National Service Center at 1-800-284-4540 and asking for Customer Service. Upon approval of application, a credit limit will be established.

Representation

Customers will be assigned to a local (or in-house) representative based on geography. Please contact our National Service Center for the name and contact information of your local Encompass Representative.

Pricing

Pricing is quoted effective at the time of sale. Pricing agreements can be exercised with an effective future termination date. If customer is a GPO member or affiliate, customer must notify Encompass prior to order being placed of any GPO membership in order to receive appropriate GPO pricing benefits. In some cases a GPO Letter of Commitment or Letter of Designation may be required to receive those benefits.

Sales Tax

State and local sales taxes are charged and collected on every sale unless the proper tax exemption documentation has been provided to our credit department.

Freight

Unless otherwise indicated, freight is not included in pricing (FOB Warehouse). Freight on mill-direct items is prepaid and added.

Payment Terms

Standard Payment Terms are Net 30 from date of invoice, payable in US dollars.

Minimum Order Size

Single purchase orders less than \$300 total will have a \$25 Minimum Order Charge applied.

RETURN POLICY

Encompass Textiles and Interiors will gladly accept returns and issue credits on products(s) that the customer received damaged and/or shipment of the wrong product (within 90 days) and issue pick-up.

Products being returned because of customer excess, wrong color, size, decision change etc., will receive a 15% restocking fee – customer pays freight back to Encompass Group.

Encompass Group will authorize the return of all products in salable condition with the following exceptions:

- Products not purchased from Encompass.
- Products purchased more than 3 months prior to the return request.
- Special or custom products made to customers, specifications.
- Products returned in defaced or other than original packaging.
- All Mill direct products that cannot be returned to the supplier.
- Products that have been processed and therefore not resalable.

Authorization

An Encompass Sales Rep or Customer Service Representative must authorize all returns. Encompass Customer Service will fax the customer the RGA to be attached to the return. Authorization will only be valid for 90 days.

Return Procedure

Each return must include the following information:

1. Purchaser name and address
2. Encompass invoice number
3. Invoice date
4. Purchaser purchase order number
5. Quantity, catalog number and description of items
6. Reason for return

Return Policy Procedures

- **Shortage Claims** – Report all short shipment to Customer Service within 72 hours of receipt of shipment. Have the packing list available for shipment identification.
- **Shipping Discrepancies** – Report all shipping inaccuracies to Customer Service within 72 hours of receipt of shipment. Have the packing slip available for shipment identification.
- **Freight Damage** – Upon receipt of shipment check all packages for visual damage. If found, note on freight bill/signature page or have driver note on freight bill/signature page. All damage, visible or concealed, must be reported to Customer Service within 72 hours of receipt.

Defective Products

Report defective products to Customer Service immediately. Credit will be issued after the product has been inspected and determined that the product was defective at the time of manufacturing. Replacement product will be shipped and invoiced prior to defective goods being returned.

Warranties and Liabilities

Encompass warrants that any product it manufactures or has made according to its specifications, will meet the claims set forth in its labeling and packaging requirements. Unless the product is used in accordance with the directions on its labeling, this warranty is void and of no effect. Any other products distributed by Encompass only carry any warranties made by their manufacturers and are not warranted by Encompass in any manner whatsoever.

THERE ARE NO OTHER EXPRESSED OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE SOLE OBLIGATION OF ENCOMPASS AND, PROVIDER'S AND ITS PROVIDER FACILITIES' EXCLUSIVE REMEDY FOR BREACH OF ANY WARRANTY SHALL BE, AT THE OPTION OF ENCOMPASS, TO REPAIR OR REPLACE THE PRODUCT. ENCOMPASS SHALL NOT BE LIABLE FOR PROXIMATE, INCIDENTAL OR CONSEQUENTIAL DAMAGES. MORE SPECIFIC WARRANTIES MAY ACCOMPANY INDIVIDUAL PRODUCTS.
