Surgical Instruments and Scopes*

Prepzyme® Forever Wet with Bio-Clean Technology is a neutral pH, multi-tiered enzymatic humectant spray which promotes the long lasting retention of moisture on soiled instruments and scopes thus helping to prevent the adhesion of bio-burden. This unique formulation gently coats instruments to maintain moisture making it an ideal pre-cleaner for soiled instruments during transport or when left for an extended period of time.

Perfect for use in Operating Rooms, Endoscopy Suites, Outpatient Surgery, Dental and other departments where instruments are transported to decontamination.

### Features

- Multi-layered enzymatic humectant spray which promotes long lasting retention of moisture on soiled instruments helping to prevent dried on bio-burden
- Keeps instruments moist for an extended period of time
- Perfect for instruments that set overnight or over a weekend
- No "skinning"; unlike other pre-cleaners does not leave a hardened skin on surfaces after an extended period of time
- Helps to prevent the adhesion of blood clots and organic debris from the cannula tunnel of instruments and scopes
- Begins working instantly on contact
- Free rinsing; washer/disinfector compatible
- No messy spills or splashing during transportation
- Neutral pH; safe for all instruments and scopes
