- Magnetic Therapy Insoles (#61100)
- Magnetic Therapy Back Support (#61000)
- Magnetic Therapy Wrist Wrap (#61300)
- Magnetic Therapy Wrist Support (#6140 and #6141)

*Magnetic therapy has been around for over 1000 years. And with recent studies by MIT, Columbia, as well as numerous universities throughout Asia and Europe, magnets have been shown to increase blood circulation and help relieve pain. With the increase in blood circulation, it helps bring more oxygen and nutrients to the affected area. The magnetic field does not heal; it merely aids the cells in creating an optimum environment in which the body can begin to heal itself, thus aiding in the healing process and reducing the recovery time.*

*Caution: Do not use this product if you are pregnant or use a pacemaker or insulin pump. Do not use this product over an open wound or drug delivery skin patches. Do not apply this product over a sprain or bruise within the first 48 hours of injury.*

# Magnetic Therapy

## Magnetic Therapy Insoles (#61100)

Patented triple layer process provides exceptional cushioned comfort, maximum penetration, and superior results

Designed to soothe your feet from everyday aches and pains
