Neoprene Hinged Knee Sleeve (#1010)
Neoprene Wrist Brace (1024)
Neoprene Wrist Control (1025)

Neoprene Soft Goods

Our specialized line of ankle, knee, wrist, elbow, and back supports constructed of neoprene provide even four-way compression while retaining natural body heat. These products are designed for a non-irritating, tapered fit.

Neoprene Ankle Support, Regular (#1022)

Beige 1/8" neoprene with 2-sided nylon
Localized compression with a unique figure 8 style wrap and contact closure
Available in S, M, L, and XL

Indications: Provides 4-way compression to reinforce ankle and foot muscles that have been weakened or stretched by strains and/or sprains.
Application Instructions: Wrap long strap around top of the foot in the desired position, extend around ankle and secure utilizing the short strap. Contact closure insures closure and proper compression.

Sizing: Measure around widest part of ankle.
Sizes: S (8"-10"), M (10"-11"), L (11"-13"), XL (13"-14")

9" Neoprene Double Pull Back Support (#1021)

Beige, 1/8" neoprene back panel covered with 2-sided nylon and tapered foam lined brush nylon side panels
Elastic double pull tension straps, four flexible stays and contact closure for a secure, comfortable fit around the body
Available in S and L
Latex free

Indications: Supports the stretched, injured or weakened muscles of the lower back and/or abdomen.
Application Instructions: Be sure to disconnect double pull bands before applying support, otherwise the stretch and support of the back and side panels is affected. Position and stretch back panel along lower back. Close left side panel over the right side panel. Then reach back and stretch double pull tension bands and secure with contact closure to side panels.

Sizing: Measure around mid-section
Sizes: S (28"-38"), L (38"-48")

Neoprene Elbow Support (#1038)

Black, 1/8" neoprene with 2-sided nylon and loop and lock contact closure
Retains natural body heat
One size
Latex free

Indications: Elbow supports provide compression to support stretched, weakened muscles, minor sprains, strains, and tendinitis.
Application Instructions: Position strap around thickest part of the forearm with mild tension and resistance to support. Be sure not to cut off circulation.

Sizes: One size

Neoprene Soft Goods

Neoprene Elbow Support (#1039)

Beige, 1/8" neoprene with 2-sided nylon and contact closure
Available in S, M, L, and XL
Latex free

Indications: Elbow supports provide compression to support stretched, weakened muscles, minor sprains, strains, and tendinitis.

Application Instructions: Center support onto elbow and close contact closure on upper arm and then around the lower arm.

Sizing: Measure 3" above elbow

Sizes: S (9"-10 1/2"), M (10 1/2"-12"), L (12"-13 1/2"), and XL (13 1/2"-15")

Neoprene Tennis Elbow Support (#1040)

Beige, 1/8" neoprene with 2-sided nylon
Slip-on for lower arm with contact closure for upper arm for secure fit
Circumferential tennis elbow strap with loop and lock contact closure
Available in S, M, L, and XL
Latex free

Indications: Adds support and compression to injured and weakened elbow muscles.

Application Instructions: Slip elbow into support and attach upper arm closure then set lower contact closure around the forearm.

Sizing: Measurement taken at the thickest part of the forearm.

Sizes: S (9"-10 1/2"), M (10"-11"), L (11"-12 1/2"), and XL (12"-13")

Neoprene Budget Knee Sleeve With Patellar Opening (#1000)

Economical slip-on style beige, 1/8" neoprene sleeve with 2-sided nylon covering
Available in XS, S, M, L, XL, XXL, XXXL, and XXXXL
Latex free

Indications: Provides compression for inflammation and support for mild knee strains or weaknesses.

Application Instructions: Slip leg into widest aspect of support with knee cap positioned to fit into the patellar opening.

Sizing: Measure the circumference of the knee while slightly bent.

Sizes: XS (12"-13"), S (13"-14"), M (14"-15"), L (15"-16"), XL (16"-17"), XXL (17"-19"), XXXL (19"-21"), and XXXXL (21"-23")

Neoprene Soft Goods

Neoprene Sports Knee Sleeve With Patellar Opening (#1005)

Slip-on style, beige 1/8" neoprene knee sleeve covered with nylon and a reinforced patella with adjustable buttress pad

Available in XS, S, M, L, XL, XXL, XXXL, and XXXXL

Latex free

Indications: Provides compression for inflammation and support for mild knee strains or weaknesses.

Application Instructions: Slip leg into widest aspect of support with knee cap positioned to fit into the patellar opening. Buttress pad can be used to reinforce patella.

Sizing: Measure the circumference of the knee while slightly bent.

Sizes: XS (12"-13"), S (13"-14"), M (14"-15"), L (15"-16"), XL (16"- 17"), XXL (17"-19")
XXXL (19"-21"), and XXXXL (21"-23")

Neoprene Spiral Knee Sleeve (#1007)

Slip-on style, beige 1/8" neoprene knee sleeve with 2-sided nylon covering and contact closure and contact closure stabilizing straps

Patella is reinforced with and adjustable buttress pad

XS, S, and M sizes support the knee with one spiral stay on each side

L, XL, XXL, XXXL, and XXXXL sizes use 2 spiral stays on each side

Available in XS, S, M, L, XL, XXL, XXXL, and XXXXL

Latex free

Indications: Provides compression for inflammation and support for mild knee strains or weaknesses.

Application Instructions: Slip leg into widest aspect of support with knee cap positioned to fit into the patellar opening. Buttress pad can be used to reinforce patella. Contact closure straps provide additional support.

Sizing: Measure the circumference of the knee while slightly bent.

Sizes: XS (12"-13"), S (13"-14"), M (14"-15"), L (15"-16"), XL (16"- 17"), XXL (17"-19")
XXXL (19"-21"), and XXXXL (21"-23")

Neoprene Hinged Knee Sleeve (#1010)

Slip-on style support is constructed of beige, 1/8" neoprene covered with 2-sided nylon with full encircling contact closure stabilizing straps

Medial and lateral hinges have hyper-extension stops and a reinforced patella with adjustable buttress pad to aid in supporting the knee

Available in XS, S, M, L, XL, XXL, XXXL, and XXXXL

Latex free

Indications: Provides compression for inflammation and support for mild knee strains or weaknesses.

Application Instructions: Slip leg into widest aspect of support with knee cap positioned to fit into the patellar opening. Buttress pad can be used to position knee. Contact closure straps provide additional support.

Sizing: Measure the circumference of the knee while slightly bent.

Sizes: XS (12"-13"), S (13"-14"), M (14"-15"), L (15"-16"), XL (16"- 17"), XXL (17"-19")
XXXL (19"-21"), and XXXXL (21"-23")

Neoprene Soft Goods

6" Neoprene Wrist Support, Left (#1024L)

6" Neoprene Wrist Support, Right (#1024R)

Beige 1/8" neoprene with 2-sided nylon and contact closure for a comfortable, secure fit
Available in: XS, S, M, L, and XL
Latex free

Indications: Provides compression for sprains, strains, and light support. Good support for carpal tunnel syndrome.

Application Instructions: Align hand in proper position with palm stay and stretch neoprene around wrist. Secure with contact closure straps.

Sizing: Measurements are based on palm width at base of thumb.

Sizes: XS (2"-2 1/2"), S (2 1/2"-3"), M (3"-3 1/2"), L (3 1/2"-4"), XL (4"-4 1/2")

Neoprene Wrist Control (#1025)

Constructed of 1/8" neoprene covered with 2-sided nylon and contact closure
Excellent support for carpal tunnel syndrome
One size
Latex free

Indications: Excellent support for reinforcing weakened and injured wrist strains. Excellent support for treatment of carpal tunnel syndrome.

Application Instructions: Application instructions are enclosed with product. Place thumb through thumb hole. Stretch short end of support over to the break of the wrist. Then, take hold of the long end of support, stretch, and bring around to the break of the wrist and attach first contact closure. Continue wrapping around and attach second contact closure.

Sizes: One size
