CompoSeal Mobilea II Portable Tube Sealer

The CompoSeal Mobilea II is a light weight, portable radio frequency (RF) sealer designed to seal medical PVC tubing in both mobile donation settings and processing environments.

The power management system uses lithium-ion battery technology to combine quality sealing performance, high battery capacity and fast charging.

High capacity lithium-ion battery

Portable, light weight design

Built for the demanding use in mobile settings

Quality seals using RF technology

CompoSeal Mobilea II

Portable Tube Sealer

The portable light weight sealer with high battery capacity

- Lithium-ion battery provides up to 1,000 seals when fully charged (validated using common sized blood bag tubing)
- Designed for portable use: the light weight power pack weighs 1.8 lbs; a robust aluminum metal housing and rubber padding improves durability in a busy environment
- Recharge an empty battery in approximately 2 hours
- Consistent quality seals
- Quick and easy operation
- Automatic adjustment of sealing time depending on tube thickness
